MARGARET CARLTON OF TULARE IS WINNER OF SILVER BONUS BUT MISSES BIG PAYOFF

MARGARET CARLTON, of Tulare, was this week's winner in the Porterville Silver Bonus contest, but, alas and alack, she missed the Silver Bonus payoff because she did not have a sales slip, dated on Tuesday, from one of the Silver Bonus stores as advertised in The Farm Tribune. Above photo shows Zoe Claubes, owner of Claubes Pharmacy, the featured Silver Bonus store of the week, phoning Mrs. Carlton the good news. Next week, \$45 will be riding on the Silver Bonus, but you must have a sales slip from a Silver Bonus store in Porterville, dated on next Tuesday to win; so shop your Silver Bonus stores every Tuesday, for sure. MRS. ELLEN CLOER, who came to the Poplar district as a bride in 1887, was honored on her 97th birthday, last Monday, when family members gathered at the Sierra View Rest home. Mrs. Cloer's husband, the late Elisha Lane Cloer, came to this area in 1873, then, in 1876, homesteaded south of Poplar. Two sons, Tom and Everett Cloer, still farm some of the original family property. Mrs. Cloer is in good health and appreciates having friends call on her. (Edwards Studio photo)

Hearings Set On Reduction Of Milk Prices

SACRAMENTO, Feb. 28 — Six public hearings have been announced by the state department of agriculture to receive testimony and evidence to determine whether a reduction in minimum prices for fluid milk scheduled by the department for April 1 should be deferred.

Hearing that will include the Tulare county marketing area will be at Modesto, March 11, beginning at 10 a.m. in the auditorium, Old Oakdale road and Scenic drive.

Minimum price orders now in effect provide for a reduction of one-half cent per quart in both consumer and producer prices, effective April 1, in milk producing areas from Kern county, south.

In northern California, including Tulare county, scheduled price reduction is one cent per quart for both producers and consumers.

PORTERVILLE, February 28 — George Davis, Springville photographer, was arraigned in Porterville Judicial District court yesterday afternoon to face a felony charge of conspiracy to violate section 311 of the penal code involving the copying and otherwise preparing obscene and indecent pictures.

Gifford announced today that contract has been completed for rodeo stock with Johnny Jackson, of Carson City, Nevada, who will fly in to look over the rodeo grounds on the Gill ranch when the present bad weather in Nevada clears up.

"DESPERATE HOURS" GOOD ENTERTAINMENT AS CURRENT BARN THEATER PRODUCTION

By Bill Rodgers

PORTERVILLE, Feb. 28—"The Desperate Hours", current Barn Theater production, is good, suspense entertainment, staged on a really excellent and unusual set designed by Barn Director Dave Weaver (who also stepped in at the last minute to do an equally excellent job in one of the play's lead roles.)

The Desperate Hours boasts a well-balanced cast — no particularly weak actors and several really competent ones—a cast that in total comes up with a high caliber performance.

To be more specific, we saw Bob Belshe, Grace Vaznaian, Joan Potts and Dan Lublin, along with Weaver, as top performers; just slightly off the pace were Jack Darcy and James Adamson. In

lesser roles, Jack Norman, Earl R. Weaverling Jr. and Carroll Simmons were about adequate.

Handling minor roles were Max Day, LaRae King and LeRoy King, all of them experienced in Barn plays, but not called on in this one to extend themselves too much.

Hershel Green, a youngster who we have not seen before on the stage, is promising indeed, and does a really convincing job as the play moves along.

The difficult task of working two stages on one is handled quite well, although a little faster movement between stages might add to the general atmosphere of suspense.

But this play is good, and certainly, in total, sustains itself at the production plane the Barn in recent months seems to have reached.

Terra Bella Irrigation District is one of the oldest districts of its kind in California, yet its operation is completely modern. New equipment, new ideas, keep the district abreast of the times, and efficient operation, even during the "trying years" of the past, has put the district in the enviable position of being without bonded indebtedness. And in anticipation of continued agricultural growth in this area, district directors are now planning an extensive development program to meet the challenge of the future. More than 25 years ago, the Terra Bella Irrigation district started to use Western Pumps. Today the district still uses Western Pumps because experience through the years has proved that Western produces a pump that gives the efficient, economical service that the district demands.

From
Daybell
Nursery

By John

You would think people might have more to do than mess around outside, but the weather has spurts of niceness which account for it. The question now is not what to sell you but instead how to keep enough around to fill your truck. However, you keep coming and we'll keep trying.

This is the beginning of petunia season and the lowly petunia is lowly no more. Of course for sixty cents a dozen you may have realized already it wasn't so lowly. In fact the new all double varieties at a dollar a dozen might convince you that they've been crossed with orchids or something. Actually, they have been crossed up quite a bit to give them more color, more stamina, and dwarf bushy habits. Well worth the added expense, especially when we have to stop and explain to you what's what and why they're so good. You'd think gardeners were going to eat them, not stick them in a hole in the ground.

Other items of interest are bleeding hearts, perennial Phlox, Gerberas, and Shasta Daisies. Bleeding hearts do well in some cool shady place, preferably in Montana. Perennial Phlox grow well in full sun or in part shade and don't mind California a bit. They come in ten colors which we hope we have kept separate. Gerberas give lots of color and come mixed. They like to be planted on a mound with the crown of the plant high. Used gopher holes make excellent planting spots. All you have to do is put the plant in the hole and tramp the soil a little and we recommend removing the gopher first.

Shasta Daisies come in all colors of white and in several shapes. These include ruffled centers, frilly petaled, double, semi-double, and some we can't explain so we show you the picture instead. These are all on display at Daybell's, complete, one stop, everything for the garden, nursery — except what you want which will be in Friday.

EMULSIFIABLE PARATHION FOR GRAPE MEALYBUG

By Frederik L. Jensen
Farm Advisor

VISALIA, Feb. 21 — Dormant sprays of emulsifiable parathion control grape mealybug, an insect particularly damaging in table grape vineyards. Mealybug infestations have been increasing in recent years in some areas of Tulare county.

The control is improved if dormant oil emulsion is added to the emulsifiable parathion. Use two pints of emulsifiable parathion and two gallons of dormant oil emulsion per 100 gallons of water. Apply 300 gallons per acre for cordon-pruned vines and 200 to 250 gallons for cane-pruned vines.

For combined black measles and mealybug control, omit the oil, and add three quarts of sodium arsenite to the hundred. When sodium arsenite is included, allow a four week interval between pruning and spraying. Spraying must be completed prior to the time the buds begin to push.

A bulletin outlining the procedure for mealybug control may be obtained from the Farm Advisor's office, post office building, Visalia.

"LEARN BY DOING"

Centered around the idea of "learn by doing", 4-H clubs of Tulare county seem to move along year after year, efficiently and effectively, developing their program for the benefit of young people, and constantly increasing in numbers and in membership.

This is not surprising, for in the 4-H program, young people from the ages of 10-21 find not only an enjoyable way to learn by doing in one or several of a wide variety of activities, but at the same time they work naturally and easily into community life through the "community projects" of the various clubs and by club participation in community activities.

The 4-H program is an instructional type of program, but instruction comes as the result of enjoyable work; it is an inspirational type of program, yet inspiration does not come suddenly, but rather over a period of time as boys and girls, through the years, find themselves moving more deeply into the program; 4-H represents work, but it is pleasant and interesting work.

Underlying the entire 4-H program is basic American thinking, tuned to the agricultural approach, but including also a well-rounded approach to the total aspect of living.

All-in-all, the 4-H program offers a valuable, and satisfying experience to club members — and to club leaders as well. It is entirely fitting that national recognition be given to the 4-H program through the week starting March 2.

The Matter of Cost

Every Loyd's funeral, no matter what the cost, is directed with dispatch and dignity. It includes professional services, use of air conditioned chapel, handling and arrangement of flowers and recording of donors, use of funeral vehicles, newspaper notices, full arrangements for clergyman and family. Cost of casket and vault may vary; all else is of one standard — the best.

Holsteins Show Excellent Records

SPRINGVILLE, Feb. 28 — Two registered Holsteins, owned by Mark L. and Bruce Borror, have recorded excellent production records: Sequoia Robee D had 18,613 pounds of milk and 663 pounds of butterfat, and Rocky Hill Chief Fred Aaggie had 18,050 pounds of milk and 782 pounds of butterfat on twice daily milking.

Tell him it's you without an electric clothes dryer — caught in the old "Monday morning squeeze" after you've stooped, stretched and strained to pin up another wash, and now feel like a washrag yourself.

Tell him the cure: a shiny new electric dryer. It saves you the lifting and bending and dependence on the weather. It saves clothes — they dry fluffier, cleaner and fresher smelling. They last longer, too.

Tell him it has to be an electric dryer, of course. Because it's so safe. Because you simply plug it in. And because it costs less to buy! (Electricity is your biggest bargain in modern living.)

We Only Heard

By BILL RODGERS

"PACKAGE DEAL" in politics involves the tying together of two or more candidates; motive is to hook a supposedly weak candidate to a supposedly strong candidate so that the strong candidate pulls the weak candidate into office . . . The package deal is often used in state and national campaigns; sometimes it works, sometimes it

doesn't . . . As a political strategy it leaves considerable to be desired, since if a candidate does not have the qualifications to win on his own, he is not the man for the job . . . We trust there will be no package deals in the forthcoming Porterville city elections.

DID YOU know that your family is liable for a debt of \$16,000. At least that's the average American family's share of the public debt in the United States, which, at the moment is estimated at one trillion dollars. This is the aggregate gross debt in America, including obligations of banks and other financial institutions, individuals, corporations and government . . . If you are looking for a bright side to this debt picture, the aggregate national debt, in relation to the gross national product, has not increased much since 1929 . . . But a trillion dollars is something more than considerable, and if the nation is to stand under a debt of this size, the wheels of the national economy must continue to turn at a high rate of speed.

THEN THERE'S the one about farmers being "sons of the soil", the modern version of which is sons of the soil bank. Ah now, we're only foolin'.

CCC-owned dairy products disposals for the week ended January 25 included: Sale of over 1 million pounds of butter for commercial export; 155,392 pounds of butter for cocoa butter extender; over 600,000 pounds of nonfat dry milk for commercial export; and 190,500 pounds of cheese for commercial export.

THE OLD DAYS

NOVEMBER 1900

A. C. Thompson, well-known fruit grower of Duarte, has propagated a new and exceptionally choice seedless orange. The new orange, called a Navelencia, is a cross between the common Washington Navel and the Valencia.

Frank Hatley, the well known bronco buster who was for a time a deputy sheriff in Tulare county, is giving entertainments in a New York theater with Lillian Smith, the crack rifle shot. Their pictures appeared in a late issue of the "Police Gazette".

J. W. Treadwell, until lately a clerk in a Porterville grocery store, was shot Wednesday at Hanford in a difficulty with a Negro bootblack. Treadwell was drinking and appears to have been the aggressor.

Constable Sigler was in Visalia on official business yesterday.

William Worley, of Milo, was in town with some samples of the apples grown in his orchard. They

are equal to anything produced back there in Indiana or old Missouri.

Some of our farmers are wishing and waiting for rain, others are dry-plowing and seeding so they can get the benefit of the first rain.

Superintendent Crookshanks has notified teachers throughout the county to discontinue the practice of sending monthly reports to his office as there is no law providing for such duties.

Up N' Down WEST OLIVE

Several cities in the state have their Miracle Miles — but West Olive is rapidly becoming two miles of miracle — the prospect of a population in excess of twenty thousand persons is foreseen today by optimistic business leaders in this district.

Although not near ready for their grand opening, the new Logan Bros. Nursery at 3041 W. Olive is busy selling trees and shrubs while carpenters and painters are putting finishing touches on the interior of new spacious display rooms — down the street a few blocks the new West Olive Nursery has just opened, Matt and Nova Milinich, owners. A large supply of evergreens and ornamentals are already in stock—the new operators of that super-duper Hancock station, I. O. Johnson and J. J. Wallis, invite you to their grand opening.

Noted: Sign on Valley Welding building — "Rain for Rent" — no takers; it was raining — two roll-away houses being built on the Paul Wm. Alley lot and already sold — the Nash Rambler and English made Metropolitan at Cemo Motor Sales, had a ride in one; now I kick my Groucho Marx — the superb portrait work of Jim Lusk, photographer, Jim sez, "people are taking photos out of their dusty hiding places and prominently displaying them on walls of living rooms and dens"—Joe Beck, A-1 Upholstery, excitedly quoting prices on new type custom-made divans, and what a skilled craftsman he is, Joe used to be associated with Riley's Furniture — The Animal Hospital with Dr. Dove in charge — Jim Cabrera, of The Fiesta, used to be manager of local Motor Vehicle Department — Porterville Equipment Rentals with geiger counters and shovels for rent.

Correction: Charcoal broiled steaks is the specialty these days at popular Prandini's — not Pizza as noted last week — there, Charley!

Tom White, of The Pit, worked nine years at Bartlett Park, thinks new park should be located below the Success Dam.

The Olive Branch: Voters will probably pass a High School bond issue this time if some of the "nick nacks" are deleted from the Master Plan.
